

Project Summary - Inventory Management Web App

Student: Aarav Mehta (3PM24CS500), CSE, Semester 6

Role: Full-Stack Developer (individual project)

Stack: React (frontend), FastAPI (REST API), PostgreSQL (database)

Features: JWT authentication, CRUD inventory, stock alerts, CSV export.

Complexity claimed: Advanced (auth, REST API, relational DB, reporting)

Synthetic demo evidence generated for the CareerDNA hackathon prototype.
